# The Chairman Message

---

The launch of Saudi Sicli in 1979 has been the core of the National Industry of firefighting equipment and systems in the Arab World, and this Company has contributed to the development of all which contribute to the investment protection from risks and achieving the best level of general safety.

Today, after more than 40 forty years from the launching and development of the services provided by the Saudi Sicli company, in addition to the firefighting equipment and system production, and the representation of major international companies specialized in different fields of protection and safety. Also, providing the integrated services to operate Private Fire Brigades, supply, installation and maintenance services for all protection systems with the most modern digital technologies.

Today, Saudi Sicli Company and all its staff are entitled to be proud of being the first company in various investment protection fields from risks to achieve the best level of general safety.

Thanks to all our valued customers for their trust and support. Special thanks to all personnel of this Lofty National Edifice. Eventhough more than forty years of impressive development in production and services, we promise all our customers that We are always looking for a better development and higher levels to achieve global standards to protect the investments from risks.

**May Allah protect you!**
